

PRÁCTICA 5: EQUILIBRIO, DIAGRAMAS.

Esta práctica se entregará el día 12 de abril 2007

Dibujar a escala los diagramas de esfuerzos cortantes, en kN, de momentos flectores, en kN·m, y de esfuerzos normales, en kN, según el criterio de signos indicado, acotando los valores numéricos en las secciones más significativas: valor máximo, punto anguloso, etc.

T (kN)

M (kNm)

N (kN)

$T(kN)$

$M(kNm)$

$N(kN)$
